

THE OPPORTUNITY AHEAD

RICHES IN NICHEs

A \$2B+ ARR opportunity hiding inside the 1,200 micro-industries that ZoomInfo, Apollo, and Clay refuse to touch. We're going to win them — one industry at a time.

Jeff Cline

Founder · r0cketship

Every industry is a **geek away from being Uberized.**

And we're going to do it one at a time

—

starting with the micro niches.

— Jeff Cline, Founder · r0cketship

THE NUMBERS BEHIND THE OPPORTUNITY

The legacy data layer leaves **\$2 billion+** of micro-niche revenue on the table — every year.

UNDERSERVED VERTICALS

1,200+

Specialty B2B verticals too small for ZoomInfo, too specialized for Apollo, too valuable to ignore.

NEAR-TERM ARR OPPORTUNITY

\$2.0B+

Aggregate annual revenue available across just the top 40 micro-niches at realistic 5–20% capture rates.

LAUNCH CADENCE

1/wk

A new branded white-label deployed every Monday. 52 verticals in year one. 200+ by year five.

THE OPPORTUNITY

The biggest businesses of the next decade are going to be the ones serving **the smallest industries.**

01 • DEMAND

High-LTV buyers, zero competition.

Commercial roofers, bio-3D-printers, cardiac genetic testing labs — buyers with \$50k–\$500k deals who'd happily pay \$4,500/mo to fill their pipeline. Apollo doesn't know they exist.

02 • ECONOMICS

Small market, huge per-customer revenue.

A "tiny" niche of 500 firms = \$50M+ ARR opportunity at our blended ACV. Less competition = lower CAC. Specialty knowledge = higher pricing power.

03 • DISRUPTION

Every industry has its Uber moment.

Real estate had Zillow. Hotels had Booking. Restaurants had OpenTable. The 1,200 industries left behind all need one thing: a sales operating system. We are it.

04 • MOAT

We compound vertically. They can't catch up.

One niche becomes brand authority + SEO compounding + JV partner network. By the time Apollo notices, we've stacked 50 verticals deep. Vertical moat is unkillable.

THE MANIFESTO

Stop selling data.
Start selling outcomes.
Win the vertical. Repeat
1,200 times.

WHAT WE REPLACE

Generic, per-seat **data tools** sold to the same 1,000 Fortune accounts everyone else chases.

WHAT WE DELIVER

A niche-branded **sales operating system** — leads + AI booking + closing — for the SMBs ZoomInfo ignores.

HOW WE WIN

One deployed platform. **1,200 branded white-labels**. 60% take rate. JV revenue share on closed business.

THE RICHES · TOP 20 OF 40

The micro niches with the **biggest hidden checks.**

Value = realistic annual r0cketship revenue at 5–20% capture × blended ACV (mix of \$1,500 / \$4,500 / JV tier).

01	Defense Tier 2/3 contractor sourcing	\$225M	11	Federal contracting consultants (GovCon)	\$77M
02	Commercial roofing contractors	\$135M	12	Data center electrical contractors	\$72M
03	Solar farm developers (utility scale)	\$96M	13	EV fleet electrification consultants	\$72M
04	Industrial automation integrators	\$90M	14	Mass tort / class action law firms	\$72M
05	Surgical centers (ASCs) — acquisitions	\$86M	15	Industrial coatings (commercial)	\$67M
06	M&A boutique advisories	\$63M	16	Fire protection / sprinkler contractors	\$58M
07	Tax attorneys (HNW / international)	\$58M	17	Hospice / palliative care growth	\$53M
08	CRO clinical trial site sourcing	\$54M	18	Compounding pharmacies (B2B)	\$54M
09	Family offices (alternative investments)	\$54M	19	Aircraft maintenance (MRO)	\$48M
10	Battery storage integrators (utility)	\$45M	20	Crane operators / heavy lift	\$42M

THE RICHES · NEXT 20 OF 40

Niches everyone else thinks are "too small".

Each one of these alone is a real business. Stack them — and you have the largest specialty B2B platform ever built.

21	Patent attorneys (boutique IP firms)	\$42M	31	Industrial scaffolding (commercial)	\$30M
22	R&D tax credit consultants	\$36M	32	Self-storage developers	\$30M
23	Aerospace machining (AS9100)	\$36M	33	TMS / ketamine clinic chains	\$29M
24	Data center developers (real estate)	\$36M	34	Veterinary specialty acquirers	\$24M
25	Immigration attorneys (EB-5 / O-1)	\$36M	35	Dental implant labs (B2B to DSOs)	\$24M
26	Private aviation (charter / fractional)	\$32M	36	Curtain wall installers (commercial)	\$22M
27	Microgrid developers	\$22M	37	Geothermal HVAC developers	\$18M
28	Bio 3D printing service bureaus	\$18M	38	Hydrogen project developers	\$18M
29	Superyacht brokers	\$18M	39	Carbon capture firms	\$14M
30	IVF / fertility clinics	\$12M	40	Cardiac genetic testing labs	\$9M

THE AGGREGATE MATH

Just the top **40 micro-niches** = \$2B+ in annual recurring revenue.

$$\begin{array}{ccccc} 40 & \times & \sim \$50M & = & \$2.0B+ \\ \text{TOP MICRO-NICHES} & & \text{AVG NICHE ARR OPP.} & & \text{AGGREGATE ARR OPPORTUNITY} \end{array}$$

AT 10× REVENUE MULTIPLE

\$20B+ enterprise value

Realistic vertical-AI sales platform comparable: Clay at 30× (private), 6sense at 12–15× (private), ZoomInfo at 6× (public).

AT 1% CAPTURE OF TOTAL OPPORTUNITY

Still a \$200M ARR business

We don't need to win every niche. Winning just 1% of the aggregate opportunity puts us on a clear IPO path.

One niche per week. **Five years** to category dominance.

YEAR 1

52 niches live

\$5M ARR. The 14-phase platform is deployed; we extend the wizard one new white-label per Monday.

YEAR 2

Category awareness

\$25M ARR · 100+ verticals
· first JV partners closing
\$1M+ books. Comp sets start calling us the new category.

YEAR 3

\$100M ARR

160 verticals · 2,400 customers at \$42k blended ACV · Series B at \$1B+ valuation, 10× multiple.

YEAR 5

The default stack

200+ verticals · \$250M+ ARR · the outbound platform every specialty B2B SMB uses by default. IPO or strategic exit.

The platform is built. The model is proven. The market is awake.

Every Monday, another industry gets Uberized. The only question is who's going to do it first — and we already are.

r0cketship

"Every industry is a **geek away from being Uberized. We're going to do it one at a time — starting with the micro niches."**
