WHY THIS. WHY NOW. WHY YOU.

You're not selling lists. You're selling **VRT CLS AI** — the predictive engine that tells customers who in their ZIP is about to buy.

01 • WHAT YOU SELL

A weapon, not a tool.

Our **predictive AI** identifies the people in any ZIP most likely to **buy** — and we only reach out to those high-intent prospects. The customer saves time and money. No one else delivers this. That's why it's a weapon, not a database.

02 • WHY IT SELLS ITSELF

\$50 in free leads. One closed deal. Hooked.

Every prospect gets **\$50 in free lead credits** — real high-intent prospects from their own ZIP delivered to their CRM. By the time you're on the call, half of them have had a "holy crap" moment. Your job is to confirm what they feel and close.

03 • WHY IT'S A MOAT

Outcomes, not data. Predictions, not lists.

Generic lead-gen ships contact records and lets the buyer chase. We ship **predicted buyers** — pre-filtered by VRT CLS AI to the people actually about to act. The competitive gap is years wide. You sell the gap.

04 • WHY YOU'LL WIN

We give you everything. You grind nothing.

No cold prospecting. No list-building. No dialer setup. Warm inbound from paid ads, a proven script library, AI booking that hands you ready-to-close meetings. **Your only job: have the conversation, get the signature.**

YOUR RAMP · WIN-WIN PARTNERSHIP · ZERO TRAINING TAX

You hunt. We close **together**. First **10 deals**, **100% of the commission** is yours.

Your first 10 deals start with **leads you bring** — your network, your outreach, your hustle. The founder or an executive joins every call to co-sell. After your first **2–3 successful closes**, our team's bookers and frontiers start routing pre-qualified leads into your pipeline. It's a **true win-win**: you bring the pipeline and the effort, we bring the methodology and the close. **You keep 100% of the commission for the full 12 months on every training-program deal.** No training tax. No cut.

DURING TRAINING

100%

of every commission stays with **you** — for the full 12-month window of each training-program close. **A true partnership:** you bring the pipeline, we bring the playbook. Founder and exec earn zero on your deals. Your book starts day one.

STEP 01

You bring the first leads. We co-sell every call.

You hunt your own pipeline — network, outreach, hustle. The founder or an executive joins every call to co-sell and run the close together. **We close together from day one.**

STEP 02

After 2–3 closes, we pepper in leads.

Once you've proven the close, our team's bookers and frontiers start routing pre-qualified leads into your pipeline alongside your own. The partnership earns itself in real time.

STEP 03

You keep 100% of the commission.

Every deal closed in the training program pays **15% to you for the full 12 months** just like every other deal in your book. Founder/exec earn zero on these. Your bag starts day one.

STEP 04

Graduate to solo. Build your book.

After 10 supported closes you have the methodology, the confidence, and the culture. From there it's your ZIP, your pipeline, your future. We're still here for hard calls and JV deals.

The whole philosophy: we're not trading hours for dollars. We're trading **talent and value for long-term economic gain** — for high-capacity people who want to use their brain, not punch a clock. The training program is how we live that belief from day one.

A RISING TIDE LIFTS ALL BOATS

We win together. Or we don't win at all.

This isn't a battle of one. We **work in our zones of genius** — and we help everyone else find theirs. When the rep crushes, the engineer who built the booking flow shares the win. When the analyst surfaces a vertical we should attack, the closer who wins it shares back. The whole boat rises.

01

Zones of genius — yours and theirs.

You do what only you can do: close. We surround you with engineers, marketers, ops, and product experts each in their own zone. No one is asked to be average at five things — everyone is great at one.

02

We help others rise.

If your win came partly because a teammate saved your client's onboarding, you say so. We don't pretend wins are solo. Recognition flows back to the people who actually helped you make it happen.

03

The whole team scales.

The future of work isn't about hierarchy. It's about who actually contributes value. We're building a company where talent compounds across the team — not just the top of the org chart.

THE PROFIT POOL · FOR EVERYONE WHO HELPED

Year-end profit pool. **Funded by everyone's wins.** Distributed to everyone who made them happen.

Beyond commission, beyond overrides — every year r0cketship sets aside a profit pool for the team. It's a real number. It pays everyone who participated. And the part that's different: **you tell us who helped you.**

THE PROFIT POOL

Your performance funds **your share.**

- ◆ **Set aside annually** from company profit — a real bonus, paid to everyone who participated in the year's success.
- ◆ **Tied to your contribution.** Reps with bigger books get bigger slices. Specialists who delivered a key vertical get bigger slices.
- ◆ **Paid at year-end.** Stacks on top of your commissions, overrides, and custom-deal earnings.
- ◆ **Transparent.** The whole company sees the pool size. Earned, not political.

DELEGATE YOUR HELPERS

Name the people who helped you win.

If the admin saved your meeting, the dispatcher ran your onboarding, the operator kept the lights on — **say so.** A portion of your pool flows to them. The people who use their zone of genius to help you use yours **get paid for it.** That's how a real team scales.

The admin who saved the deal

The dispatcher who ran the handoff

The engineer who fixed it fast

The teammate who stayed late

RUN IT BIGGER · BUILD YOUR FUTURE

If you can sell — you can **scale**. If you can lead — you can **multiply**.

A great rep compounds a \$200K+/yr book on top of the floor. A great leader builds five. We're hiring closers who want a book — and the leaders who'll build the regions, the verticals, and the playbooks for what comes next.

PATH 01 · SALES LEADERSHIP

Manager track — lead a team, earn overrides.

A **management position is available** for proven closers ready to lead. Stack overrides on every rep you mentor, build a region, and grow into the leadership team. Top sales managers in our category earn **\$1M+ in overrides alone**.

PATH 02 · SPECIALIST EXPERT

Vertical authority — bring your industry edge.

Already an expert in a specialty B2B vertical? **Overrides available for highly specialized leaders and experts in their field**. Bring your network, run a niche end-to-end, earn **10% of profit on every custom deal** closed inside it.

"We're not trading time for money anymore. We're trading **talent and value for long-term economic gain** — the way it should be for high-capacity people. Every industry is a geek away from being Uberized. **If you can close, you'll be one of the wealthiest reps in B2B sales over the next five years.**"
